Enthusiasm Is Shown In Millsboro Revival Despite Bad Weather

"Home Night" at the joint revival services being conducted by the Presbyterian and Methodist churches at Millsboro, attracted a large congregation to the Millsboro Presbyterian church last night, despite the inclement weather conditions.

Many entire families were seated together in the auditorium. A powerful sermon was delivered by Rev. J. D. Ely, while special music was furnished by the adult chorus of 75 voices and the junior choir of 25 voices under the leadership of William Light of California. Many gave testimonies to the value of leading a Christian life and as to the influence of the family altar. There were several conversions and others who re-consecrated their life to God. A rally for young people will be held tomorrow night when Rev. Mr. Ely will speak on "Meeting the Temptations."

AUTOS CRASH; TWO ARE HURT

Jerome Robuk, 32 years old, a coal miner, living near Cokeburg, and Carl Meisner, 22 years old, of Beallsville, were injured yesterday in an automobile accident on the Bentleyville-Monongahela pike three miles from Monongahela. Robuk was a passenger in his brother's Ford touring car and Meisner was riding in a Dodge roadster belonging to John Summer of Somerset township. The former suffered a broken collar bone and slight contusions while Meisner, sustained severe cuts and bruises about the face and neck. The injured men were removed to the home of E. G. Mates and received first aid treatment following which they were removed to Monongahela for additional aid. The accident occurred when the cars met in a head-on crash at a dangerous turn. Owing to the slippery condition of the highway the cars could not be stopped when the drivers of each machine noticed the oncoming car and the crash was practically unavoidable owing to the fast rate of speed which each car was traveling at the time. The injured men were taken to their respective homes after receiving medical aid.

Miss Lou Scott, organist at the Monongahela Methodist Episcopal church met with a serious accident, on Main street by falling Wednesday evening about 10 o'clock near Fifth street. Miss Scott was on her way home and had the misfortune to fall as she approached Fifth street. She sustained a compound fracture of the right arm. Miss Scott made her way to her home nearby and was taken to the Memorial hospital where an X-ray examination of the member was made. Miss Scott is confined to her home.

Local Man Is Missing—There Is No Trace

Oliver Welch, a man probably 60 years old, an employee of the shovel factory here when it was in operation for a period of about 30 years, and who lived at 18 Shovel row, is missing, and the authorities are without tangible clue as to his whereabouts; albeit one report is to the effect that he was last seen on the Belle Vernon bridge on Monday at 11 o'clock.

Welch has been living alone in quarters that were in a degraded condition, according to the authorities. Prior to his disappearance Welch agreed to go to the county home, after the suggestion was made by the local Board of Charities. He was presumed to have gone on Tuesday of this week. He had sold a portion of his household belongings and personal effects, and a part of his household furniture is still at his former living quarters.

Welch had four rooms. He had not been working for some time, and had received aid from the authorities. When seen at his home he was using papers for bed coverlets, and indications were that his circumstances were destitute in the extreme. He has no known relatives in this section.

Any person knowing the man, or having information concerning him, will confer a favor by notifying the local police department.

BOY IS UNCONSCIOUS; BUT AT SCHOOL TODAY

Emerson Walters, 10-year-old son of Mr. and Mrs. William C. Walters of the Greenberg apartments, McKean avenue, had a narrow escape from serious injury yesterday when, coasting down Fifth street at about 4:15 o'clock, Emerson came down the hill on his sled when he struck the ashes at Washington avenue he stopped. Before he could arise and get out of the way of others approaching, another sled crashed into his, knocking him off to the street. He was rendered unconscious and was taken to his home, where medical aid was administered. His injuries proved to be slight, and he was able to attend school as usual today.

Storms Practically At An End For a Few Days, At Least—Clear And Cold This Morning, With Old Sol Shining Resplendent

ICY CONDITIONS PREVAIL

Caution Being Taken By Pedestrians And Drivers—Service Resumed At Connellsville And Uniontown, Where People Are Cut Off From World

With old Sol shining resplendent in all his glory this morning, dangers, storms, winds, and the elements generally seem to be virtually at an end for the time being, at least. The weather is sharp and crisp, and the conditions existing in the streets, roads, and on the sidewalks are still treacherous making the pedestrian and the highway driver exceedingly careful in his travels; but fortunately there have been no fatalities in this vicinity as a result of the unusual "vagaries" of the weather.

With the coming of the cold weather, dangers fraught from high waters in the Monongahela river are practically eliminated, the waters are receding and traffic on the stream has been resumed. The flood stage, for the present, is obviated.

Charleroi has been exceedingly fortunate. While Uniontown and Connellsville folk have been without electricity, and practically cut off from the outside world, service here has been practically unhampered. Word received this morning is to the effect that the street cars are again running in Fayette county today and that the newspapers of the county are receiving press service.

Lock 4 was opened for traffic last night, and Locks 3 and 5 this morning. A 25 foot, three inch stage, was reported this morning, a fall of 7 feet and 2 inches over yesterday morning.

TO ENHANCE THEIR WEAL

To insure the children of Fayette City a safe place to play the Fayette City Volunteer Fire Company has taken up matter of establishing in that community a play ground which will be equipped with all the first class playground amusements it is possible to procure and when the ground is completed it will rank among the first in this vicinity. The firemen's first move to procure funds to defray the necessary expenses has already been inaugurated in the series of three dances now being conducted in the Athletic club rooms of that town the first two of the series having been held on January 22 and February 11 and the third which is to take place Friday evening February 29. The first two evening's affairs enjoyed a wonderful patronage and were successful financially, for after paying all the expenses of the dances, the firemen had a net sum from each dance to turn over to play ground fund. The best of music has featured each evening and a return engagement of the Harlem Harmony Boys has been booked by the orchestra committee for the dance February 29. Dancing will be held from 8:30 to 12:30. Everybody is extended an invitation to be present.

The committee in charge of the dances consists of Edward D. Steinman, Jr., publicity, W. J. Riley, music, Abe Fleisher, refreshments and entertainment, with Joseph Pinkas as floor manager and the balance of the entire company on the reception committee.

JEAN TOLLEY FINDS CHEST OF GOLD COINS

The Coyle theatre promises to have an unusually large crowd this evening—the last day for the depicting of "The Great Idea"—"Own Your Home" propaganda. One of the distinct features in connection with the bill tonight will be that of the picturization of Jean Tolley, a fair-haired Southern girl, who appears in "The Uninvited Guest."

Miss Tolley gained renown at the onset in moving pictures, when, assigned to the role of diving into the sea and be photographed under water she dove—and struck something that felt like a chest, and when hauled to the surface it proved to be a chest containing old Spanish coins—something like \$40,000.

ROUTINE OF COUNTY COURTS

Dr. Anania Flores, of West Zol-larsville, has filed a suit against the American Eagle Fire Insurance Co. of New York, the Northern Insurance Co. of New York, State Assurance Company (limited) of Liverpool, England and The Eagle Fire company of New York, to recover on certain insurance policies held with these companies.

The sums claimed are \$5,000, \$2,500 and \$5,000, respectively, with interest on each one from October 5, 1923.

The plaintiff conducted a mercantile place at West Zollarsville, it being destroyed by fire on June 19, of last year. The loss claimed, as a result of that fire, was \$26,028.95.

The plaintiff avers he complied with the terms of the policies, but that payment under them has been refused.

Deputy constables recently named by the court their commutation having taken care of by the regularly elected constable, are the following: Louis D. Wright, Chartiers township; Joseph Prothers, Donora; William Van Tassel and Steve Kadus, Cecil township and James Daly and Glenn Wonseller, Canton township.

Albert W. Smith and William F. Ermlich have been appointed auditors of Stockdale borough to take the place of William E. McFall who resigned and Elmer Underwood, who removed from the district.

In the matter of a proposed new road in the Laboratory section of North Strebane township the court, upon petition, has appointed these viewers: John M. F. Hana, William Wylie and C. C. Dunn.

The road asked to be laid out would begin on the National highway adjoining the land of George W. Shine and about 200 feet west of the intersection of that highway and the Laboratory-Vance Station road. It would then run north and west through the Stroctor plan and again come out on the National highway about 970 feet west of this Laboratory-Vance Station road near the property of Louis Naser.

Sun-Dried Oysters.

GEORGE WASHINGTON.
February is fruited with sacred memories, the most illustrious of which probably is that in this month were given to the world, one to be known as "the Father of his country" and the other, as "the saviour of his country."

Today the world, and particularly America, are doing homage to the memory of George Washington. Among the greatest tributes that can be paid to the character of this great man was his loyalty and devotion to his country. Serving the United States in her extremity through an eight-years' war entirely without pay; receiving no monetary considerations aside from the settlement of his expense account during the years, where do we find such men today, rich or poor?

Another feature in the character of Washington is that of his optimism. Placing reliance in the Great Jehovah, he was not dismayed by reverses, for, knowing that right must beat might, he continued his course unswervingly to the end, and for the perpetuity of the nation and its establishment as a permanent entity among the world as a great world power—we owe so much to the immortal Washington.

THE POWER OF OIL.

In the past one of the uses of oil in some of its forms was to ease the stiffened joints of infirm persons. One of its uses in our time is to influence the views and loosen the tongues of statesmen. Teapot Dome is not the first instance of the marvelous powers of oil as an intellectual lubricant. It is widely believed, and doubtless with good reason, that Turkey escaped her just deserts largely because of the keen interest of foreign statesmen (backed by foreign commercial interests) in the extensive oil deposits of that country. Another instance of the persuasive power of oil in legislative halls, causing haughty statesmen completely to reverse a previous political policy, is to be found in the history of the \$25,000,000 indemnity paid by our government to the republic of Colombia.

When Colombia demanded an indemnity for the loss of her province of Panama, on the ground that she had yielded, not to the trifling overnight revolt of the puny Panamanians, but to the warships of the United States sent to protect them, millions of fair-play Americans and a large part of Congress thought she had a just complaint, and it was argued, moreover, that to pay an indemnity would make for better feeling not only in Colombia itself but throughout Spanish-America. The indemnity treaty proposed in 1917 failed of ratification, however, because of the determined opposition of powerful Senators, including Messrs. Lodge and Fall, who indignantly and virtuously argued:

"This payment can only be predicated on the assumption that we are indebted to Colombia either morally or legally, and no combination of words, no niceties of diplomatic language, can hide the naked truth that this treaty is an admission that the conduct of this country in acquiring the right to construct a canal across the Isthmus of Panama was a wrong committed against Colombia. No other hypothesis could Colombia ask for this indemnity of \$25,000,000, and on no other could we acquiesce in that demand. We can not afford to purchase cordial relations with any country. We can not afford to answer a blackmail demand. We shall be held up for every fancied wrong by other countries."

But what was a base surrender to blackmail in 1917 became an act of good will and justice in 1921 and the rejected treaty giving a \$25,000,000 indemnity to Colombia was brought forward and ratified, the very men who had previously repudiated it with so much indignation, showing untiringly toward that end, the canny Mr. Fall himself then Secretary of the Interior worked like a man to secure ratification by senators who had to eat their own words in order to join in the new treaty. Rich oil deposits had been located in Colombia, covetous and powerful American interests were for the good will of the government of that country, and pressure was brought to bear on statesmen formerly had distinguished themselves by Colombia's claim as infamous blackmail. Great is the power

THE freight service which was performed by the Pennsylvania Railroad System last year was equivalent to carrying one ton about 55,000,000 miles.

It was the greatest amount of service this or any other railroad was ever called upon to render.

It necessitated the handling of 8,600,000 loaded freight cars—about 17 per cent. of all the freight cars loaded in the United States.

If the loaded freight cars moved over the Pennsylvania Railroad System last year were made in a single train it would be about 70,000 miles long—nearly enough to go around the world three times.

The very day you start to use Calumet Baking Powder your baking expenses reduce. The price of Calumet is not the only reason for its economy—it's the great leavening strength it possesses—the unfailing results that are always experienced when it is used, that's what counts—that's what makes it the economy leavener.

Never use heaping spoonfuls when you bake with Calumet—it isn't necessary because one spoonful of Calumet does the work of two of many other brands.

Why should you run the risk of spoiling your bakings by using a leavener that has not proven its merits—that may mean success today and failure tomorrow? Don't experiment—use Calumet. It makes more bakings—goes farther and lasts longer. Its superior quality has stood out above all other baking powders for many years.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 16 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

SINCLAIR LOSES IN ITALIAN LEASES

Rome, Feb. 22.—(United Press)—Harry F. Sinclair loses, for the time being at least, the Italian oil lease he sought here.

The Teapot Dome scandal found an echo in the Italian press, a strong section of which attacked Signor Corbano, minister of National Economy, for granting Sinclair's company a monopoly to drill for oil in all Italian possessions.

Signor Corbano accordingly decided not to sign the convention and to submit the matter to the personal consideration of Premier Mussolini, who is inclined to favor Italian oil interests.

MRS. M. G. COREY MAY MARRY A PRINCE

Paris, Feb. 22.—(United Press)—Mrs. Mabel Gilman Corey is reported engaged to Prince Luis Ferdinand, one of the many Bourbon princes, a first cousin of King Alfonso of Spain. Announcement of the engagement is understood to have come with Mrs. Corey's consent. It will be made formally when Alfonso and the Infanta Bulalia, Prince Luis' mother, give their approval.

Mrs. Corey, who recently was divorced from William E. Corey, former head of the United States Steel Corporation, is understood to have been friendly with the Prince for 20 years.

In Society's Realm

The members of the National Electric Light Association of the West Penn Power company entertained at their annual dance last evening in the ball room of the Elks club with a large attendance. The Keystone serenaders furnished the music.

The Star class of the First Christian church, taught by J. Moeller, held their regular monthly meeting last evening at the home of Misses Emma and Frances Vogel, 33 Shady avenue with 12 members present and visitors also present from Browns-ville and Charleroi. Tonight is the night of the Elks first annual formal dance. Elaborate plans have been made by the committee in charge, composed of Evely Jobs and William Vetter. The ball room has been especially decorated for the occasion and the affair gives promise of being one of the most successful social entertainments of the season. The Harlem Harmony Boys will be present to add to the success of the occasion. Dancing will begin at 9:30 to continue to 1:30.

The Emanon club was delightfully entertained at the home of Mrs. Ben H. Davis of Fallowfield avenue last evening with a George Washington party. Officers were elected for the following term and plans discussed for a spring dance. The main diversions of the evening were cards and social converse. At a late hour luncheon was served by the hostess assisted by Miss Julia Schwaed. The next meeting will be held March 6 at the home of Miss Peg Schwaed of Crest avenue.

A large number of members of the Crozier club of St. Mary's Episcopal church will journey to Browns-ville this evening to attend the George Washington party and dance which will be held in the parish house at that place under the auspices of the Dew Drop Inn club. Arrangements have been made with the members of the Monessen Auxiliary to share the large bus that they have hired for the evening. The bus will be at the corner of Seventh street and Fallowfield avenue this evening at 7:15 o'clock and all those wishing to attend will kindly be there at that time.

A good time was spent by the 25 members and two visitors present at the regular monthly meeting of the Sewing Circle of the Washington Avenue Presbyterian church last evening held at the home of Miss Della Curry of Crest avenue. Walters, Mrs. Tom Myers, Mrs. Ethel Wickerham, Mrs. Harry Pearson, Miss Mary Bradley and Miss Curry.

Eighteen members of the club were present together with 4 guests. Mrs. C. B. King was taken into the society last night. In observance of music week, a musical program was carried out. Miss Alfreda Smith favored with several piano solos and Mrs. Ruth Bennington contributed a vocal solo. Both ladies were applauded and rewarded with encores. Old-fashioned songs were sung by the entire gathering. In keeping with Washington's birthday, national colors were used for decorative purposes and were also carried out in the delicious luncheon served by the hostess, assisted by Miss Alfreda Smith. The next regular meeting will be held in two weeks at the home of Mrs. Myrtle Randolph of Monessen.

It's Spring by Fashion's Calendar

The sun doesn't say so, but it is Spring, in women's minds and in this Store. Fascinating new clothes have arrived and boulevards will be blooming with them soon. Don't you want to be among the first to see and wear these handsome frocks, wraps, suits, and hats?

WRAPS That Do Spring's Bidding

The first Spring breeze must find you ready with a new, becoming Coat. Fashion has made many of these three-quarter length, though she still stands by the long. Some are very dressy, of sleek satin with standing collar; others are sports-like. All are delightfully unusual.

\$15 to \$49.50

FROCKS Follow New Paths

Now it is a jaunty shoulder cape hanging from a flannel Frock, now a long tunic, now a two-piece Dress that tells a chapter of the Spring fashion story. Here these ideas are carried out in satin, Canton crepe, lustrous twills and broadcloth of interesting new colors.

\$14.95 to \$49.50

J. W. Berryman & Son

SUITS With Boyish Charm

Nothing will fit in more agreeably with a zesty Spring mood than one of these boylike Suits. Their jackets are ever so short and jaunty, double breasted sometimes; and their skirts are wrap-arounds. In the very fashionable pin stripe twills and smartly colored camel's hair.

\$21.00 to \$49.50

HATS Spring Likes Best

Spring Hats so all important are joyously varied this year. Tricornees for women who love them, cuff brimmed Hats of new straws and tiny felts unusually clever are only a part. Spring trimmings and colors are fascinating and flattering in Hats for women young and older.

\$2.75 to \$14.00

DEMPSEY TO MEET COOLIDGE

Washington, Feb. 22.—(United Press.)—Heavyweight champion, Dempsey, will meet President Coolidge today. Though no appointments were scheduled at the White House because of the holiday the President agreed to come to his office to meet Dempsey at noon.

NOW THEY EVEN WANT COFFEE PROHIBITED

New York, Feb. 22.—(United Press.)—Hudson Maxim's announced campaign to have prohibition of coffee along with intoxicating liquor, included in the enforcement of the 18th amendment, started the pot boiling at the National Coffee Roasters' association today.

"We feel certain that Maxim will find enough opposition to his plan to make it interesting," said Felix Coste, secretary to the association. "Coffee is too good a friend to millions, rich and poor, for them to relinquish it without a struggle."

"Prof. Samuel C. Prescott, of the Massachusetts Institute of Technology, has just finished an exhaustive research and reports that coffee is not in any way harmful, but, on the contrary, gives comfort and inspiration. The professor finds that caffeine in coffee is not a drug nor a narcotic poison."

THEY ARE STILL GOING WAY UP

Dayton, Ohio, Feb. 22.—(United Press.)—Lieutenant J. A. MacReady, air pilot, today broke the world's altitude record by ascending to the height of 41,000 feet. His time was two hours and three minutes.

Castle of Chapultepec. Emperor Maximilian and his consort resided in the castle of Chapultepec during their brief reign in Mexico. The castle is said to be in the exact condition in which it was when they fled from it.

To Measure Gases. A bathing cap, automobile grease gun and can of soda lime are among the parts of a simply constructed apparatus designed to teach medical students how to measure gases breathed.

Some Record. Married in 1883, a mother before her seventeenth birthday, a grandmother fifteen years later, at the age of thirty-one, is the record of a woman living in Carmarthenshire, Wales.

Sure Sign. If you see a couple walking along the street and the man goes on while the woman pauses to look in at the shop windows it's a sure sign that they are married.

We Wonder. Jud Tunkins says you'll never get the man with a silver to want the traffic cops to go heart and soul along with this idea of rigid law enforcement.

Another Boss. Once upon a time the cook was the undisputed head of the family. These days the family finds itself taking a back seat, too, for the chauffeur.

Cowardice Dangerous. I am a man of peace. God knows how I love peace; but I hope I shall never be such a coward as to mistake oppression for peace.—Kosuth.

Slight Difference. A man seldom has as much faith in his vote when he is voting for something as he does when he is voting to punish somebody.

Honor Napoleon. Ajaccio was chosen the capital of Corsica because Napoleon's mother desired that his birthplace be honored in that way.

FATHER OF 57

FACES CHARGES

Pittsburgh, Feb. 22, (United Press)—Dr. H. B. Allen, father of 57 children, brought here recently from California to face charges of violating the Mann Act arraigned in Morals court today on a disorderly conduct charge. He is free on a \$10,000 bond awaiting trial.

House Detective. Rubenstein, of the Fort Pitt Hotel, arrested Allen with a young woman in a room at the hotel last night.

Both were nude, Rubenstein said. At the hearing the judge said he turned Allen over to the Department of Justice agents.

BAKER IS TO SUPPORT THE HON. JAMES M. COX

Cleveland, Ohio, Feb. 22.—(United Press.)—Newton D. Baker, former war secretary today declared he will support James M. Cox, former governor of Ohio, for the Democratic nomination for president. Cox has signified his intention of entering the Ohio presidential primaries in April. At the same time Baker served notice that he will urge a league of nations plank in the Democratic platform.

Shrewdness Sometimes Realistic. Let the "intelligentist" realize that millions of people are not as dull as their ordinary conversation sounds. Shrewdness isn't always expressing itself.—St. Louis Globe-Democrat.

Two Forms of Camphor. It is now found that there are two forms of camphor, but only one of these yields the solid camphor which is of value as a preservative of clothing against moths.

Language Wasted. Hi—"I understand your new hired man left yesterday." Si—"Yes, got discouraged when he found out that sweating at a tractor didn't relieve his feelings."—Life.

On to Him. Burroughs—"Good morning, Brown. Good bracing weather, isn't it?" Brown—"Not for bracing me! I can't lend you a cent."—Boston Transcript.

Decidedly Baggy. Little Tommy (seeing his first elephant)—"I think he would look better if they would crease his legs like papa's."—Boston Transcript.

Add Sedentary Pursuits. An Iowa man advertises in his home weekly: "I am in a position to hatch your eggs at 5 cents a dozen."—Kansas City Star.

TRYING TO LEARN

WHEREABOUTS OF SOME BOOZE

Philadelphia, Feb. 22.—(United Press.)—Prohibition agents today are investigating to determine the source and destination of \$5,000 worth of alcohol which was seized last Thursday in a freight yard here.

Two prohibition agents working in the freight yard as laborers in an attempt to trace large shipments of liquor which they suspected was being shipped from here pried open packing cases labeled "paper" and discovered the alcohol.

Authorities are working on the theory that a Philadelphia paper mill and a Camden, N. J., shipping concern are implicated in the alcohol shipment.
